Subject: Request from Clark Kelso to support those impacted by natural disasters

This email is being sent to all California IT Leaders on behalf of the State CIO, Clark Kelso.

Good day, my friends.

In response to the terrible fires in Southern California, the Department of Consumer Affairs, working with the eServices Office and others, have created a great resource for people whose lives are turned upside down by natural disasters. The site is at www.rebuildyourlife.ca.gov. As people continue to recover from the fires, we have given the site substantial prominence on the State's homepage, www.ca.gov. I would ask each of you to consider adding a link to the site on your departmental home page, particularly if your department has any responsibility for providing services to segments of the public that might be affected by natural disasters. I am attaching a graphic for the link. Take a look at www.dca.ca.gov for one example of the link's placement. Thanks for your action on this item.

Clark Kelso
Chief Information Officer
State of California
